

Introduction to Pistol Shooting
Shippensburg Fish and Game Association

Saturday 1st April 2015

Start Time 0800 finish 1600 hours.

Location: Club House at SFGA.

There has been a great deal of interest expressed in holding an Introduction to pistol shooting by male and female members. They have been informed about the new blended course with the first stage on line and the second stage live firing at the range under the supervision of NRA Certified Firearms Instructor. Upon successful completion of the course they will receive an NRA certificate.

However, they have made their wishes clear that they would like some basic instruction before attempting the blended course and that is what this introduction to pistol shooting will achieve.

The course will be open to the first six (6) students, (due to instructor student ratio's and available range time and space) that respond to my email address, apw9957@yahoo.com. If we have more than six (6) respond then we will arrange other shooting days and inform potential students of the time and place.

A detailed program will be issued later to the students. Students can bring their own .22 pistol and ammo, (No magnum rounds) which will be secured in their vehicles during the introduction phase. I will provide .22 pistol for those who do not have one.

Andrew P Williams

NRA Certified Firearms Instructor
